Or By the Component.

Top

Tiers
(available in letter, legal & x-ray sizes)

Base
(available in 1" or 4" height)

■ PREASSEMBLED or by the component

- Preassembled and ready to use
- By the component for field assembly

■ MODULAR DESIGN

- Order to your required height
- Easy to expand
- Easy to reconfigure
- Easy to move

■ COMPLETE RANGE OF SIZES

- Letter, Legal & X-Ray sizes available in 36" and 48" widths

■ SAVES SPACE

- Up to 50% over conventional file cabinets

■ SAVES TIME

- Up to 50% of normal filing time

■ SAVES COST

- Up to 70% less than vertical or lateral files

■ IMPROVES FILING EFFICIENCY

- Allows two or more people to work in the same area
- Helps eliminate misfiles and bad filing habits
- Promotes overall office organization

■ DURABLE, ALL-STEEL, WELDED CONSTRUCTION

- Unitized, formed steel body with fixed welded dividers for rigidity
- Rolled edge dividers with embossed ribs for extra file protection

■ COMPLEMENTS ANY ENVIRONMENT

- Attractive office furniture appearance
- Neutral, baked enamel finish standard
- Custom colors available

Lateral Track Systems

EASY OFFICE SET-UP

- Fully factory assembled
- Just set in place — No tools required
- 99% of customers can assemble with own personnel

HIGH DENSITY FILING

- Mobilizes your shelving for easy access high density filing
- Allows 2- to 3-times the storage capacity of conventional filing

ADAPTABLE

- Use with a variety of equipment — ClassicStak, four post shelving, vertical or lateral files, flipper door cabinets, archival (bulk) storage, etc.
- Easily utilized with existing equipment

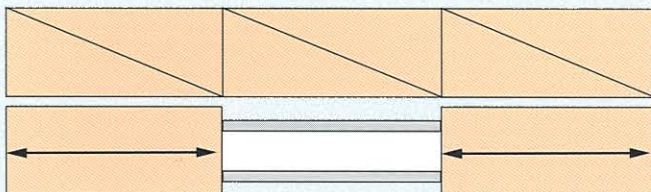

SAVES FLOOR SPACE

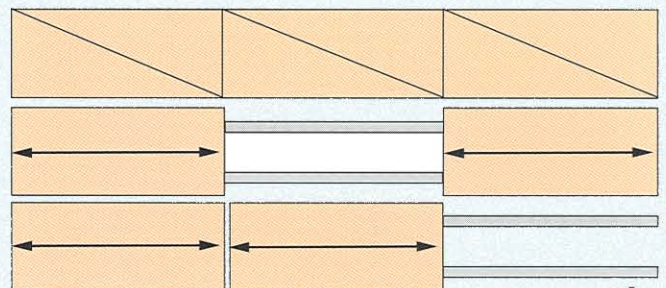

- High Density Design takes up to 50% less space than standard filing cabinets

REDUCES ACCESS TIME

- Easy rolling carriages for quick file access
- Saves up to 50% of normal filing time

Bi-File

Tri-File

Available with up to six rear stationary sections and two rows of five movable fronts.
Tri-File applications require minimal floor attachment.
